

JUSTIFICATION FOR SINGLE SOURCE AWARDS IAW FAR 13.106-1
(OVER MICRO-PURCHASE THRESHOLD(\$3K) BUT NOT EXCEEDING THE SAT (\$150K))

IAW FAR13.104, COs must promote competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the Government, considering the administrative cost of the purchase. When competition is not practicable, IAW FAR13.106-1(b), COs solicit from a single source for purchases not exceeding the simplified acquisition threshold. COs may solicit from one source if the CO determines that the circumstances of the contract action deem only one source reasonably available (e.g., urgency, exclusive licensing agreements, brand-name or industrial mobilization). IAW FAR13.106-3(b)(3), COs are required to include additional statements **explaining the absence of competition** (see 13.106-1 for brand name purchases) if only one source is solicited and the acquisition does not exceed the simplified acquisition threshold (does not apply to an acquisition of utility services available from only one source) or supporting the award decision if other than price-related factors were considered in selecting the supplier. This template when completed can be used to document single source awards IAW FAR13.106-3(b)(3). Note: Statements such as "only known source" or "only source which can meet the required delivery date" are inadequate to support a sole source purchase.

1. PURCHASE REQUEST OR REQUISITION NUMBER:
636-15-2-3555-0002

**1A. PROJECT/TASK
NUMBER** 636-121

2. BRIEF DESCRIPTION OF SUPPLIES OR SERVICES REQUIRED AND THE INTENDED USE:

A new construction project that has a need for name brand sole source items - Simplex Fire Alarm System. This is a partial requirement for project 636-121 Build Supply, Processing & Distribution Addition.

Acquisition of following:

Simplex Fire Alarm System: FACP, Horns/Strobes, Smoke/Heat Detectors, Flow/Tamper Switches, Manual Station Switches, Strobes, and Remote Indicators.

3. UNIQUE CHARACTERISTICS THAT LIMIT AVAILABILITY TO ONLY ONE SOURCE, WITH THE REASON NO OTHER SUPPLIES OR SERVICES CAN BE USED:

The existing fire detection system was manufactured by Simplex. Connection of the components must be tied in with the existing system. The system has been in use for more than 10-years and has become the standard for the fire detection systems throughout the medical center. This standard was established at the time the Simplex system was first procured. The use of Simplex products in the expansion of our fire alarm system is essential to the government's requirements.

4. REASON THAT SUGGESTED SOURCE IS THE ONLY SOURCE, WHICH CAN PROVIDE THE SUPPLIES OR SERVICES:

New components must be able to tie into an existing and operational system including the use of software. At this time, there are no competing vendors whose products are fully compatible with the existing system being used at VACIHCS.

5. DESCRIPTION OF MARKET RESEARCH CONDUCTED AND RESULTS OR STATEMENT WHY IT WAS NOT CONDUCTED:

Based upon previous acquisitions for the same items, market research has shown to be limited to Simplex and its products. Market research was not completed for this item as it is the selected system for the Medical Center.

6. Contracting Officer's Certification: *Purchase is approved in accordance with FAR13.106-1(b). I certify that the foregoing justification is accurate and complete to the best of my knowledge and belief.*
